TUTORIAL 10: Write a C++ program to validate exam marks and throw an exception if marks are outside 0–100.

NAME – Arenyu Bahiwal

BATCH – SY 2

DIV – A2

```
#include <iostream>
using namespace std;

int main() {
   int marks;
   cout << "Enter marks: ";
   cin >> marks;

   try {
      if (marks < 0 || marks > 100)
         throw marks;

      cout << "Valid marks: " << marks;
   }
   catch (int m) {
      cout << "Invalid marks: " << m;
   }

   return 0;
}
```

Output

```
Enter marks: 40
Valid marks: 40
```
